

## **2.0 PHYSICAL AND BIOLOGICAL DESCRIPTION OF THE WATERSHED**

This chapter provides physical and biological descriptions of the water management planning area. It describes the ecosystem and habitat that will be taken into consideration during the planning process. The chapter is divided into the following sections:

- 2.1 Physical and Biological Description of the Watershed
- 2.2 Parks and Protected Areas
- 2.3 Fish Species by Reservoir
- 2.4 Species of the Watershed
